By October 3rd, 2027, Element Church will elevate, expand, and reinforce the credibility of “the Local Church” in all 23 counties in the state of Wyoming. With over 400,000 people disconnected from the message and ministry of Jesus in our state, Element will lead the charge to unleash a movement of God’s people, armed with compassion, infusing life into our neighborhoods through the power of the only One who gives it, Jesus.

We will accomplish this by providing weekly worship experiences which will refresh and replenish our souls and will overflow into our everyday lives as we seek and serve the tangible needs of those around us. We will live and lead in such a way that an indelible mark is made on our communities, so much so that if we were gone an irreplaceable void would be left behind. As a place to call “Home,” we will impart hope and healing, not only for our children today, but also for generations to come.

Because of Cheyenne’s unique location at the cornerstone of the I-25 and I-80 corridor which connects our state together, and because this is bigger than any one church, we will partner with existing churches and leaders around Wyoming; investing in their distinct ministry context, providing multiple pathways for all people to be filled with life in Christ. We will also raise up healthy, multiplying and prevailing pastors and leaders who will produce video locations, plant stand-alone churches or participate in their current churches which will serve as conduits of God’s blessing, quenching our thirst and irrigating the parched spiritual landscape around us.

We firmly believe that Wyoming doesn’t exist for the Church,  
the Church exists for Wyoming.
